Les Naisbitt  
President  
Naisbitt Company  
Sparks, Nevada 89431

Dear Les,

It has been over two years since construction began on the Village at Idlewild. I thought it appropriate to write you a note and express my appreciation for your company's cooperation with my firm in its role as the financial institution's inspector for the project. You and your staff have made my job considerably easier with prompt, accurate and complete Applications for Payment.

Further, I would like to compliment Naisbitt Company for building a very difficult project and having a result which is one of the best of it's type that I have seen. The project had many challenges beyond normal such as: extremely poor site conditions (even by Reno standards), construction through one of the worst winters on record, a mid-stream change in the use of the project from apartments to condominiums and a change in financial institutions prior to completing construction. The Naisbitt Company met all these extra ordinary challenges with grace, patience and professionalism.

I hope that Greenstreet will have another opportunity to work with Naisbitt Company.

Cordially,

A handwritten signature in black ink, appearing to read "Randy Tomic". The signature is stylized and includes a long horizontal line extending to the right.
